## A. S. OLDS ELECTED TO HEAD STATE PHARMACISTS

At an adjourned meeting of the new Nevada State Pharmaceutical association last night the permanent organization was perfected. A. S. Olds of Goldfield was named as president and will serve until next November. C. E. Week of Reno was made vice president and H. J. Duncan of Reno, secretary and treasurer.

## NOTICE TO THE PUBLIC.

I have disposed of the Tonopah Auto Supply company and warn all persons indebted to me to make settlement before November 20 and save costs.

## NOT CANDIDATE FOR ELECTIVE OFFICE NOW

GEORGE BARTLETT SAYS HE IS PRACTICING LAW AND TRYING TO MAKE A LIVING.

George A. Bartlett is in Tonopah for a few days on business connected with the Casino company and is an enthusiastic over the prosperity of the state as he ever was. One of the first questions popped at the former congressman was if he was going to be a candidate at the next election.

"No, I am not a candidate," was his emphatic rejoinder. "I'm simply trying to make a living practicing law and am making Carson City my home. You may say, however, I do not believe in the new primary system as provided by the present Nevada statutes because, under practice and custom strongly entrenched in our state, none but a rich man, or one strongly backed by wealthy or special interests, can afford to run for a state office. I am still earnestly endeavoring to take the judiciary completely out of politics, and I am hopeful that the Nevada Bar association will adopt a plan before the next campaign which will provide means for the endorsement of candidates for judicial offices in both state and district courts without regard to political complexion. This will in no wise mean the exclusion of the right of any candidate not so endorsed to run for such position, politically, if he so desires, but I consider it the duty of the bar to suggest suitable timber for the bench and voters can then have, at least, the benefit of the judgment of those best able to determine the ability and integrity of judicial timber. They need not vote for them unless their judgment coincides with the bar, and they can vote for any other candidate who chooses to run.

"My discussions of the subject throughout the state convince me of the strong tendency of the people in favor of a non-partisan judiciary. The only thing to do, therefore, is to devise a practical plan for carrying it into effect. The bar association could easily take a vote that would in no wise embarrass any of its members."

"What do you think of the Newlands campaign?"

"The anti-Newlands sentiment in the democratic party, in my judgment, is being principally fostered by republican antagonism. The democrats will eventually reinstate Newlands and his election is as positive and certain as the prosperity of Tonopah.

"Now, about that candidacy, as I said, I am not seeking any elective office, but I would like to be appointed United States district attorney; but I believe that with the present senatorial commitments the office has been provided for."

JOHN W. RYAN'S ADDRESS IS WANTED BY BROTHER

John W. Ryan, a mining man and veteran of the civil war, in which he was a member of Company E, twenty-first Missouri volunteers, is supposed to be in Nevada and his address is wanted by his brother, Martin Ryan, 2401 Commerce street, Houston, Tex. In a letter to the postmaster here Martin Ryan states he has not heard from John W. for about two years, after which, the brother wrote, he was again going to the hills. Nothing has since been heard from him.

## CONFESSED SLAYER BELIEVES IN DEVIL

(By Associated Press.) CHICAGO, Nov. 14.—Henry Spencer, the confessed slayer of Mrs. Mildred Rexroat, a tango teacher, continued his erratic behavior at the trial. On the stand today he declined to be sworn, saying he believed only in the devil.

It's of exceptional value at the price. It's sure to be advertised in the Bonanza, else the merchant would be hopelessly unprogressive.

## COPPER CANYON HAULING WATER FOR SLUICING

UNIQUE MINING METHODS IN THE RICH PLACERS OF LANDER COUNTY.

There is much quiet talk among mining men of the city regarding the placer developments at Copper canyon, 22 miles out from Battle Mountain, and a number of them are slipping out to visit the district from whence reports of excellent ground are coming.

Among those who have a comprehensive knowledge of conditions in Copper canyon is R. D. Pickett, who has spent several weeks in the district surveying claims.

According to Mr. Pickett, the pay in Copper canyon has been demonstrated for a distance of 400 feet and that, so far as the work has determined, the pay streak is from 100 to 200 feet wide. This cannot be stated with any degree of certainty, however, as the number of holes sunk can hardly be said to be more than preliminary prospecting.

There is an excellent wash gravel of from 35 to 45 feet to bedrock with two and three feet of pay. Some of this gravel is running as high as \$100 to the cubic yard, which, according to the Alaska method of measuring, should make it from \$8 to \$15 to the square foot of bedrock.

The rocker method of recovering the gold is used exclusively, owing to the lack of water. They are hauling water three and four miles and five men are taking out from \$5 to \$75 a day from two yards of dirt, using five barrels of water at 50 cents a barrel. On the Christenson ground at the mouth of the canyon there are three working shafts. There are two on the Scott-Healey ground and two on the Davis-Neubert claims. There are about 60 men working on the creek. Some prospecting holes have been sunk on adjoining creeks and indications point to a wide area of placer gravels. The ground on these creeks has been located but there are plenty of chances for leasers.—Reno Journal.

## NICKEL A BY-PRODUCT.

There are no producing nickel mines in the United States. The output of nickel from domestic ores is merely a by-product from electrolytes of the copper refineries. Salts and metal equivalent to 328 short tons of metallic nickel were saved from both foreign and domestic ore. Nickel ore "imported for consumption" is mostly from the Canadian deposits.

If you bought nothing but advertised goods during the next twelve months, you'd reduce the cost and raise the standard of living—surprisingly!

E. Y. McKEE, foreman of the Willow Creek Mining company, autoed in from the mine last night, being threatened with appendicitis, and may have to undergo an operation.

DR. M. R. WARD, president of the Tonopah Extension company, is a guest of John G. Kirchen. He is a brother-in-law of Charles Schwab and was formerly secretary-treasurer of the Extension. Dr. Ward is well known, having been entertained by the old Mizpah club in 1905.

## COALS TO NEWCASTLE.

Even though crude oil and gasoline are being largely substituted for coal as a source of power in Seward peninsula, Alaska, 16,495 tons of coal was imported in 1912. In spite of Alaska's great coal resources, not over 200 tons was mined in the entire territory in 1912. Alaska is sadly in need of a statute allowing her to mine her own coal, under adequate terms.

## ALASKA'S MINERAL WEALTH.

The United States geological survey has recently published a report on the mining industry in Alaska in 1912, by Alfred H. Brooks. The bulletin—No. 542-A—is one of a series published annually, treating of the progress of mining in Alaska and summarizing the results achieved during the year in the investigation of the mineral resources of the territory.
